

Red Hat Pizzeria

"Enterprise-Grade Flavor. 100% Open Source Ingredients."

Microservices (Starters)

Git Push Garlic Knots

\$6.00

Committed to flavor. Dough tied in knots and pushed to the oven branch.

Containerized Mozz Sticks

\$9.00

Isolated in crispy breadcrumbs, deployed with a side of hot marinara.

Root Access Wings

\$12.00

Requires sudo to eat. Extremely spicy buffalo sauce.

The Distros (Pizzas)

Available in Standard (12") and Enterprise (18")

The Fedora Core

\$14 / \$20

The upstream classic. Tomato sauce, fresh mozzarella, basil. Bleeding edge flavor.

The RHEL Deal

\$18 / \$26

Long-term support for your hunger. Pepperoni, sausage, bacon, and ham.

The OpenShift Supreme

\$19 / \$28

Fully orchestrated toppings: Peppers, onions, mushrooms, sausage, and pepperoni.

Kernel Panic

\$16 / \$24

Hot cherry peppers, spicy soppressata, and hot honey. System crash imminent.

The Cloud Native Veggie

\$16 / \$24

Lightweight and scalable. Spinach, tomatoes, onions, and black olives.

Binaries (Drinks)

Java

\$3.00

Hot coffee.

Python Scripts

\$3.00

Coke/Sprite products.

Local Brews

\$7.00

Draft beer. Ask server for current taps.
